Located at the heart of the meeting space, our exhibit offers participants—influential educators and researchers—the opportunity to select from a comprehensive collection of the latest and most significant books and journals. Attendees seek monographs for their own research and texts for classroom adoption. **This is one of the best opportunities of the year to promote your titles on the full range of sociological topics: sociological research and method, social theory and issues, politics, economics, race, gender, age, criminology and policy.**

Our professional exhibit managers actively promote your titles by distributing flyers and catalogs, discussing books with conferees, selling titles on-site using publisher-supplied order forms, and urging instructors to consider titles for course adoption and library acquisition. **Attendees visit our exhibits repeatedly in the course of a meeting. Space is limited.**
