Library of Social Science's book exhibit will once again be a featured component of the NEEPS meeting. Located at the center of the meeting site, our exhibit offers conferees a unique opportunity to buy books from a comprehensive collection of titles on evolution, psychology, mind and social behavior from the major publishers. **Our professional exhibit managers actively promote titles by distributing flyers and catalogs, discussing books with attendees, selling books on-site using publisher-supplied order forms, and urging faculty to consider titles for course adoption and library acquisition.**

Attendees at this meeting are avid book-buyers intent upon keeping up with the latest publications. This is the best opportunity of the year to promote your titles to a prime market of scholars and teachers seeking monographs and texts for research and course use on all aspects of evolutionary psychology—from neurobiology, genetics and biochemistry to religion, sociology and literature.
